- MADE IN SPAIN

COMMENTS:

It is a classic boot, replicated by our competition many times without reaching the quality and comfort of the original. The incredible design of the outsole gives outstanding grip.

Its design, touch, colour ... the feelings that this boot transmits are unique!

This FOCA OLIVA, made entirely of our own PVC-NITRILE formulation stands out for its great strength and durability without losing comfort and lightness. We can recommend it for many applications such as agriculture, fishing or leisure.
