

1.8m Safety Cones

The RoadQuip® Barrier Cone is the tallest cone in the range at 1.8 metres, making it ideal for high-visibility applications where standard cones are not enough. Its size and bright finish help manage pedestrian flow, reserve parking, form barricades, and channelise traffic at events or work sites. Cones can be supplied with custom decals and reflective stickers to display warnings, directions, and branding for a more effective and user-friendly setup.

Product Features:

- Extra high 1.8 m cone for standout visibility.
- Bright, high-visibility finish for day and night awareness.
- Wide base for added stability.
- Durable and stackable design for easy handling and storage.
- Locally manufactured UV stabilised plastic.
- Custom decals and reflective stickers are available for clear messaging.
